## ■ what is theater

### **1, The place where the stage and the position relations of the seat are fixed.**

- **One side of the space is a stage, and one side becomes the seat  
(proscenium form, shoe-box type structure)**
- **The stage pushes it out in the seat, and the audience surrounds it from  
the plural directions (thrust stage, open form)**
- **The stage of the space is central, and seats surround it  
(the circular stage, Vin yard type)**

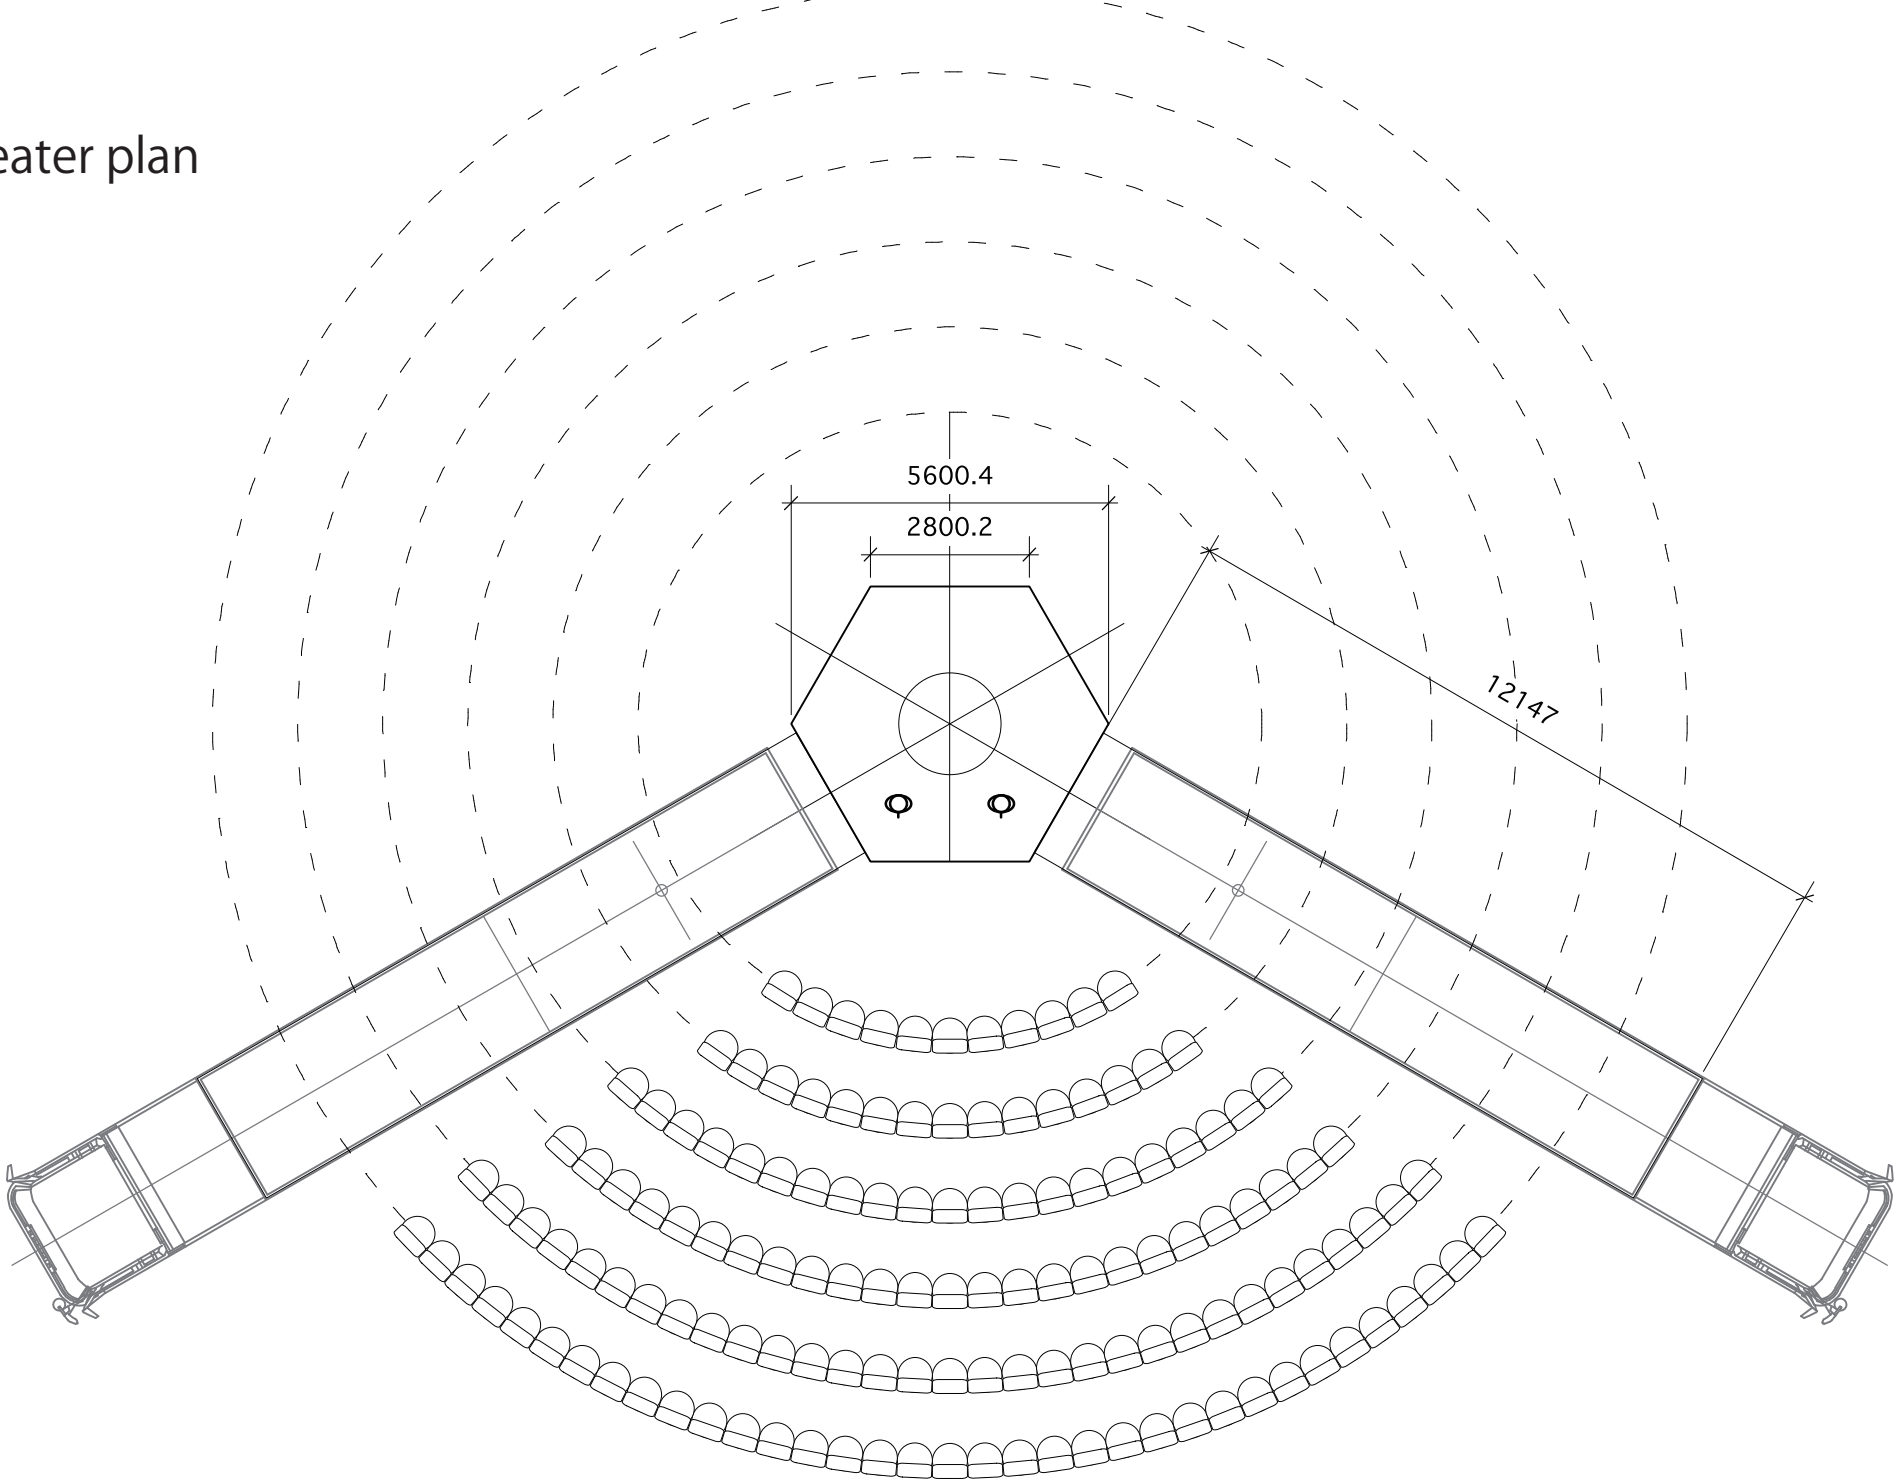

### **2, By a program, the place where We can change the stage and the position of the seat freely.**
